Study Buddy

**Find Your Perfect
*Academic Match!***

[About project](#)[User Personas](#)[Userflow](#)[Wireframes](#)[Design System](#)[UI Design](#)

Study Buddy connects university students based on compatible study preferences, schedules, and academic interests. Whether you're seeking a focused one-on-one partner like Diana, need flexible last-minute study sessions like Freddy, or thrive in small discussion groups like Sam, our app matches you with the right peers. Simply create a profile detailing your courses, study style, and scheduling preferences to transform your academic experience from solitary struggles to productive collaborations that enhance learning outcomes and build lasting campus connections.

About project

1. Dedicated Diana

Profile: Third-year Pharmacy student with structured academic requirements

Study Habits: Consistent daily schedule, prefers library, studies late evenings

Pain Points: Finding equally committed partners, verifying subject knowledge

App Needs: Reliability verification, field-specific matching, scheduling tools

Quote: "I need someone who takes studying as seriously as I do."

2. Flexible Freddy

Profile: Second-year Animation student with project-based workload

Study Habits: Variable schedule, studies before deadlines, prefers coffee shops

Pain Points: Last-minute partner finding, scheduling conflicts

App Needs: Quick-match functionality, flexible scheduling, location proximity

Quote: "My schedule changes weekly —I need study partners who can adapt."

3. Social Sam

Profile: First-year MBA student transitioning to university environment

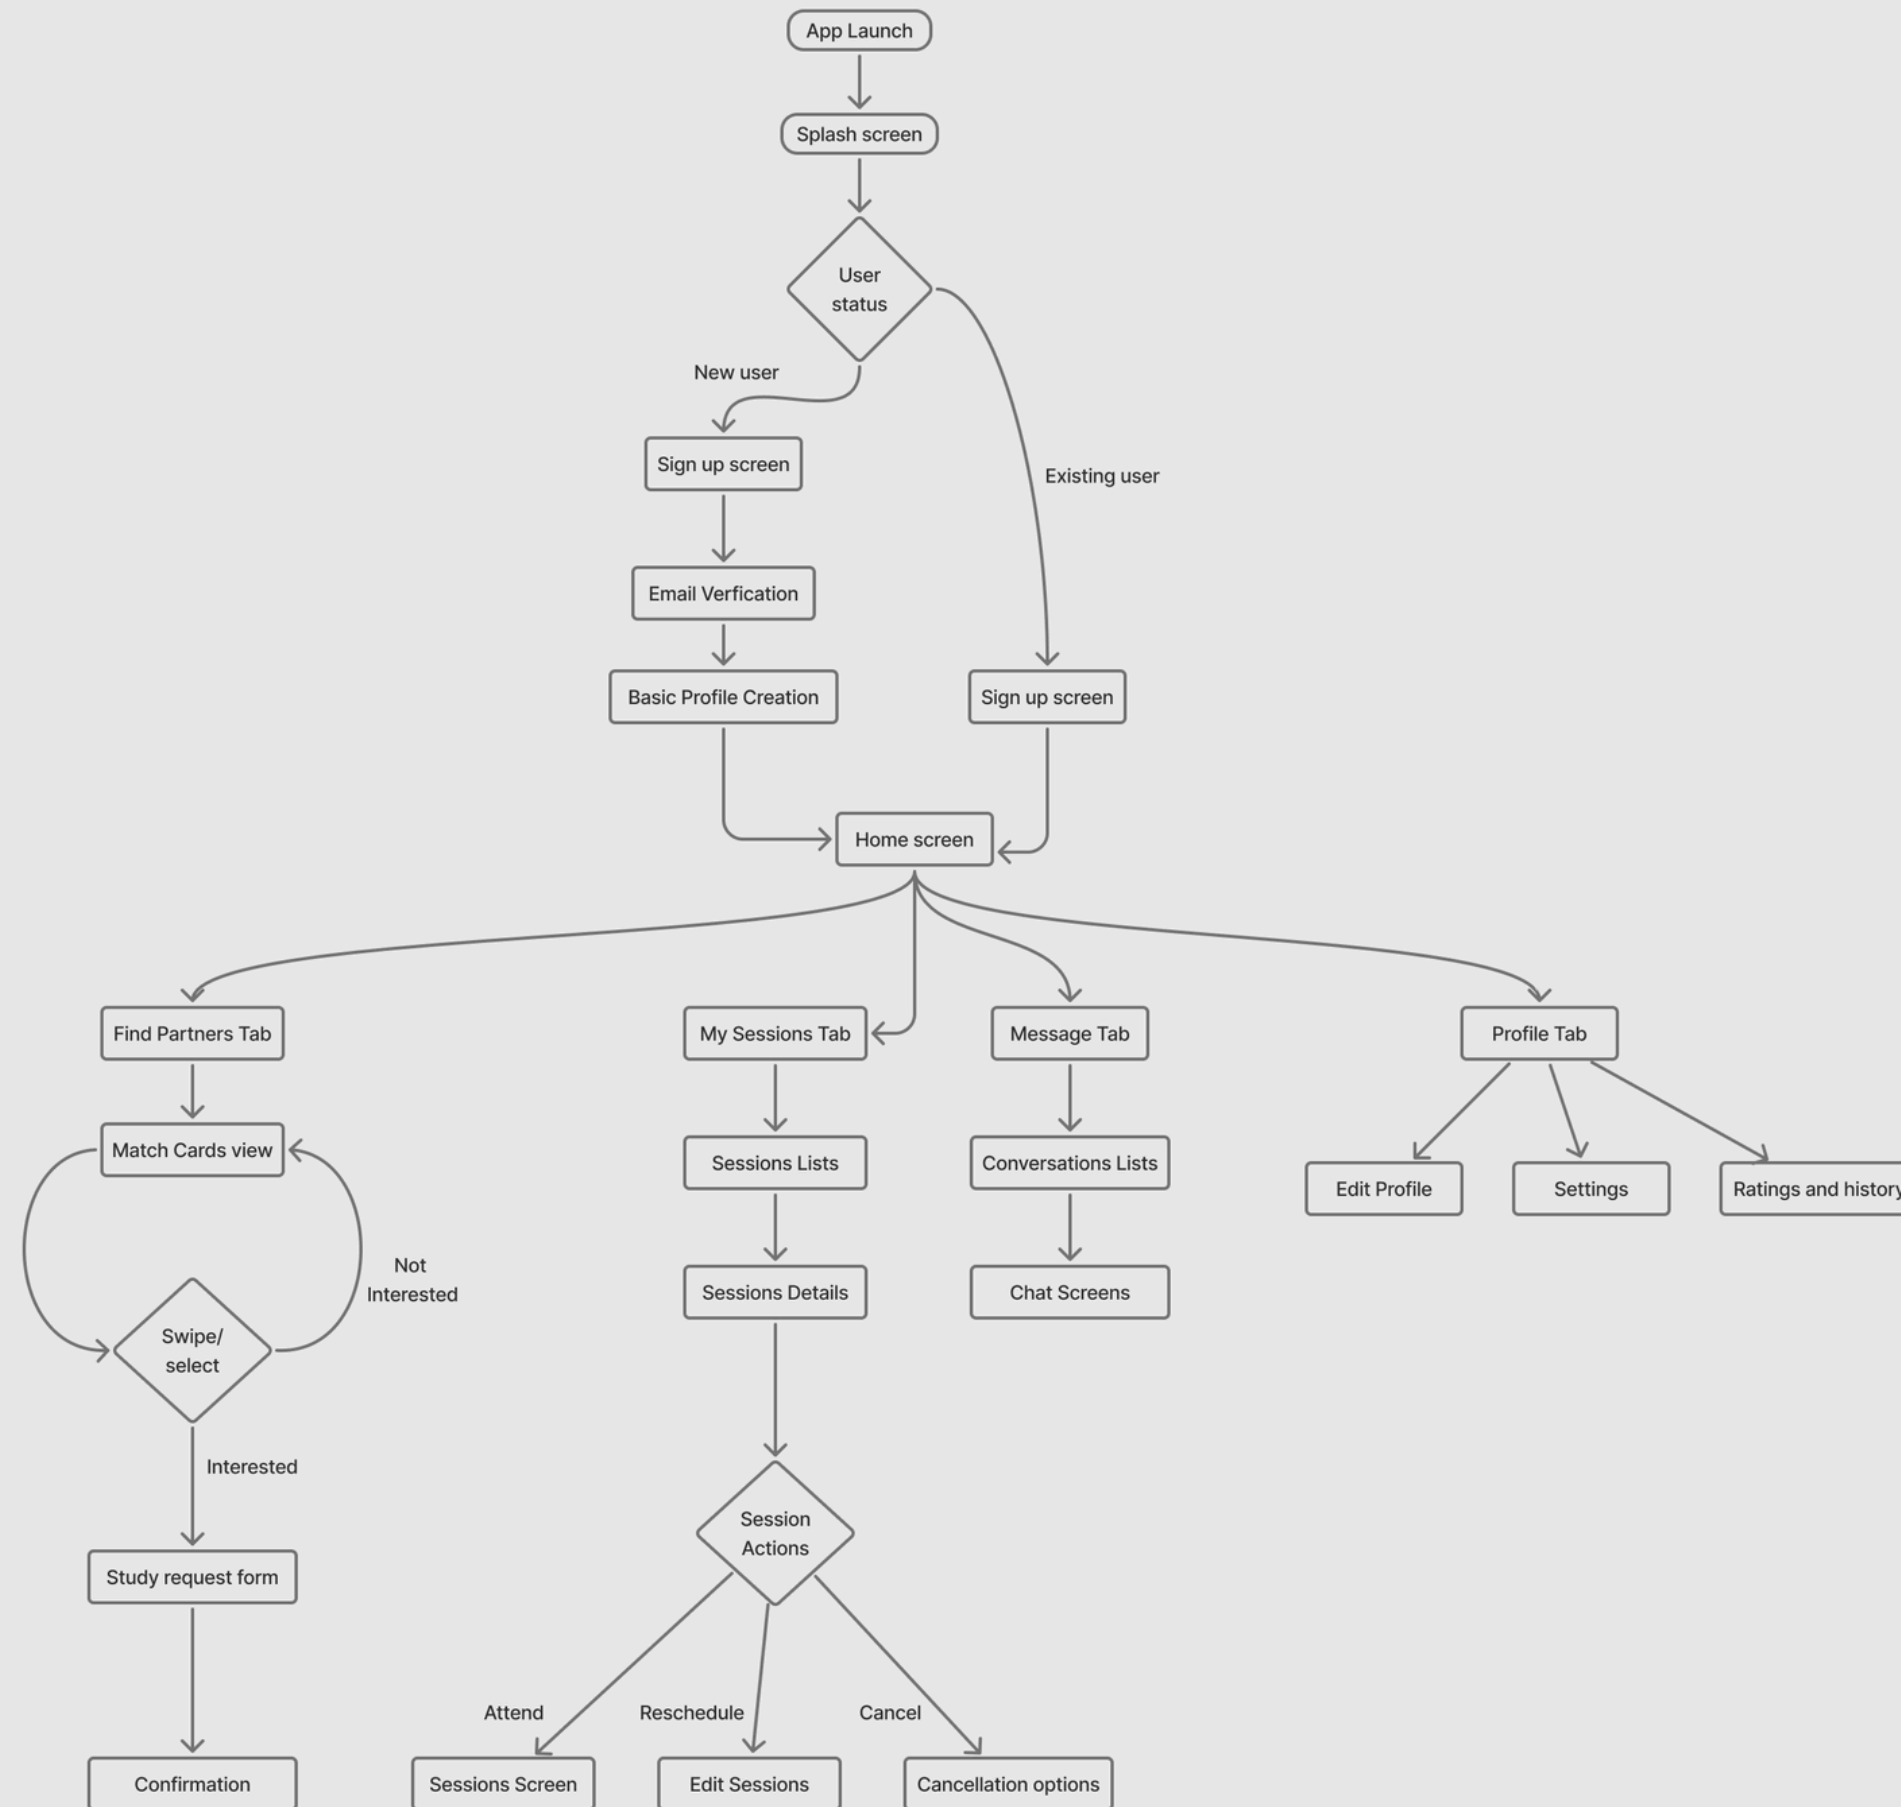

Study Habits: Prefers small groups (3-4), discussion-based learning

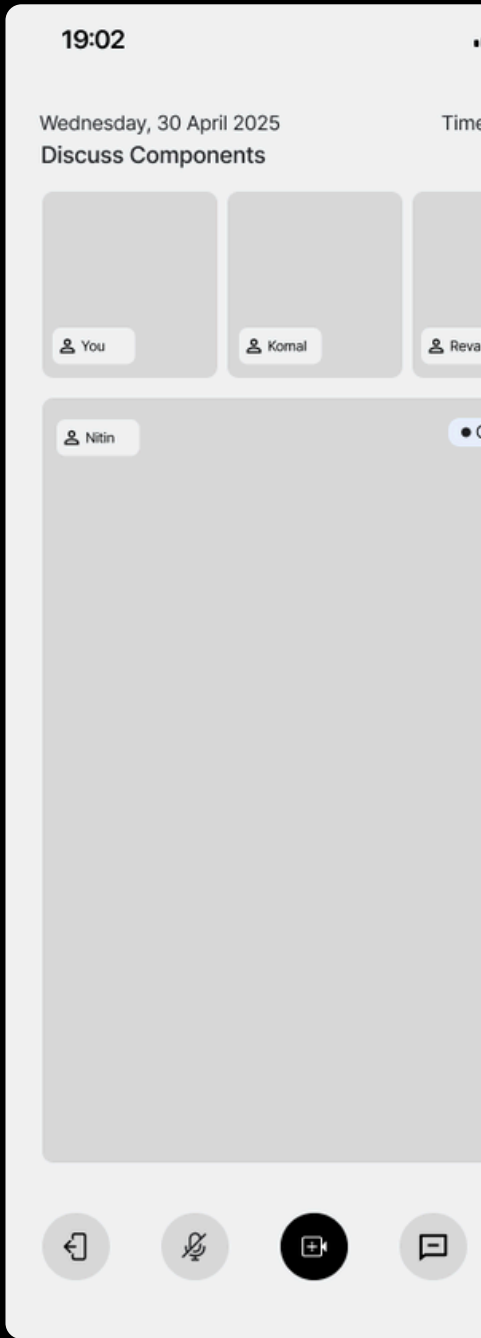

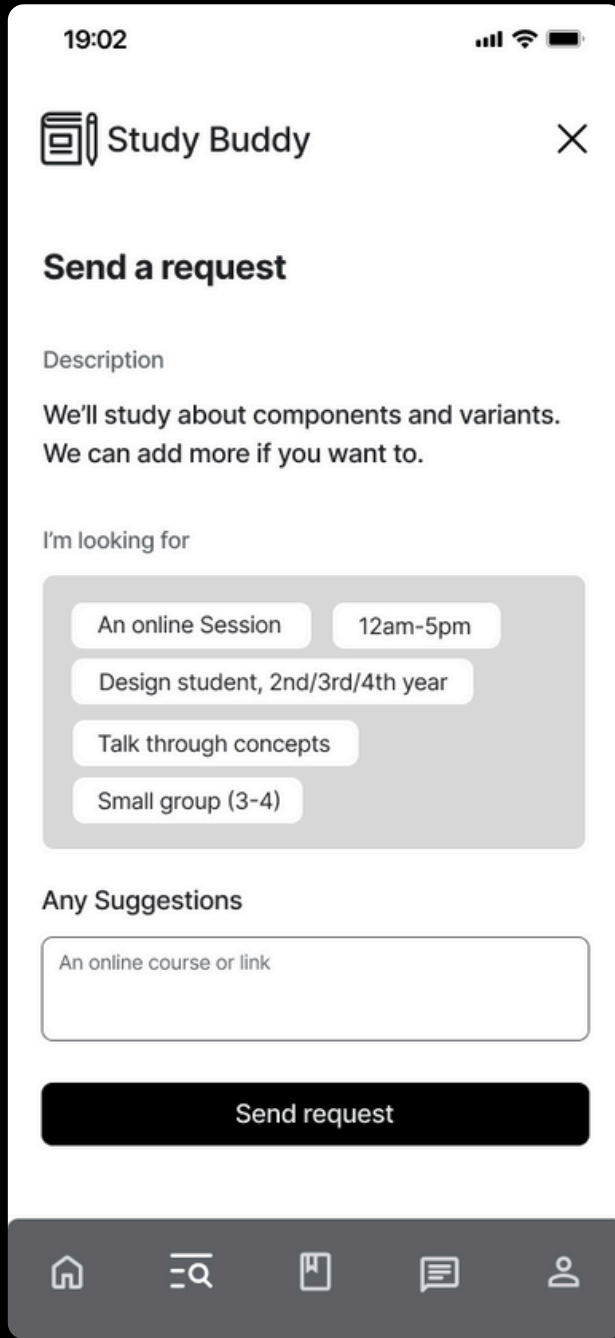

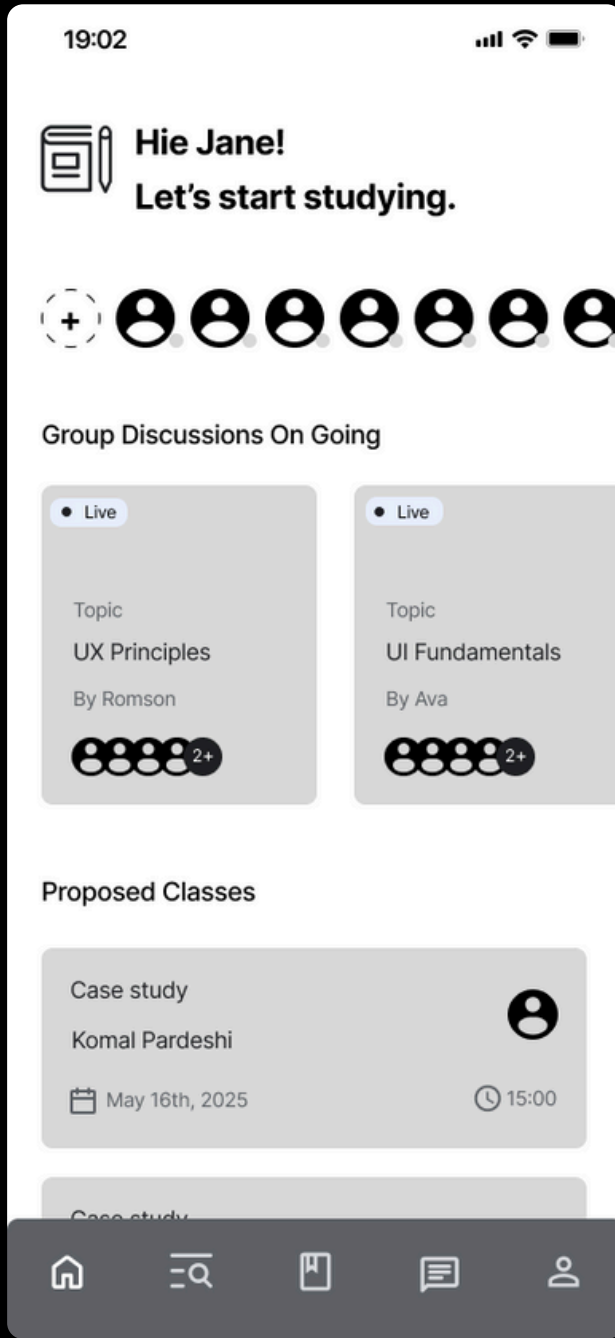

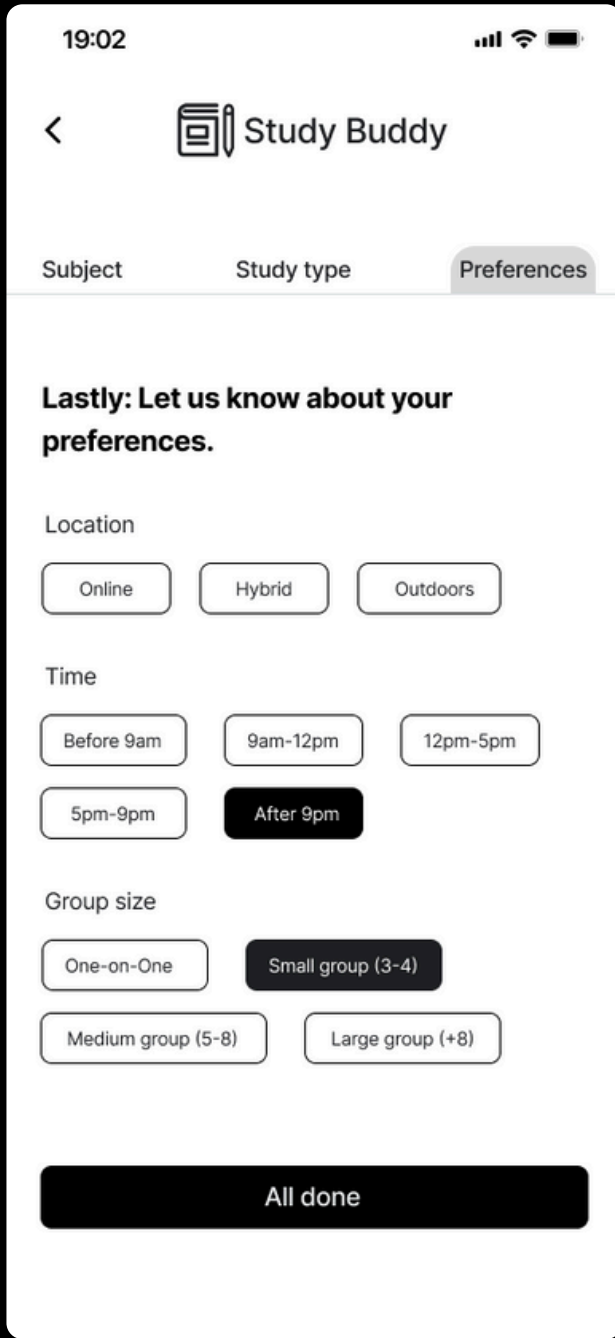

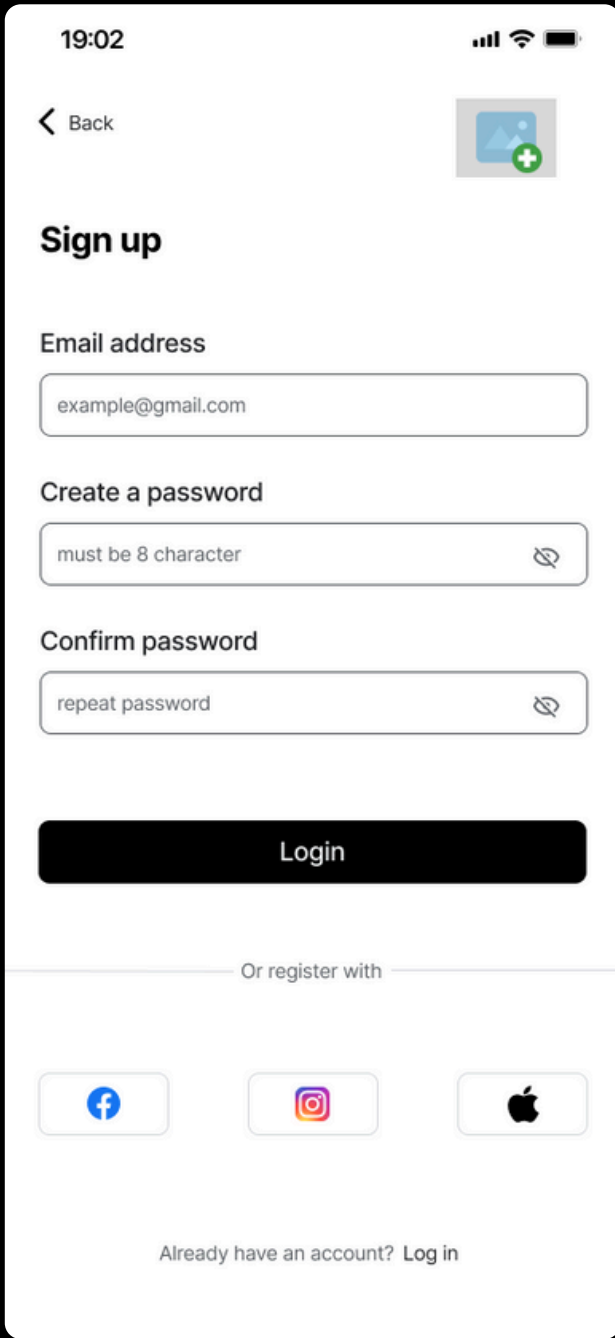

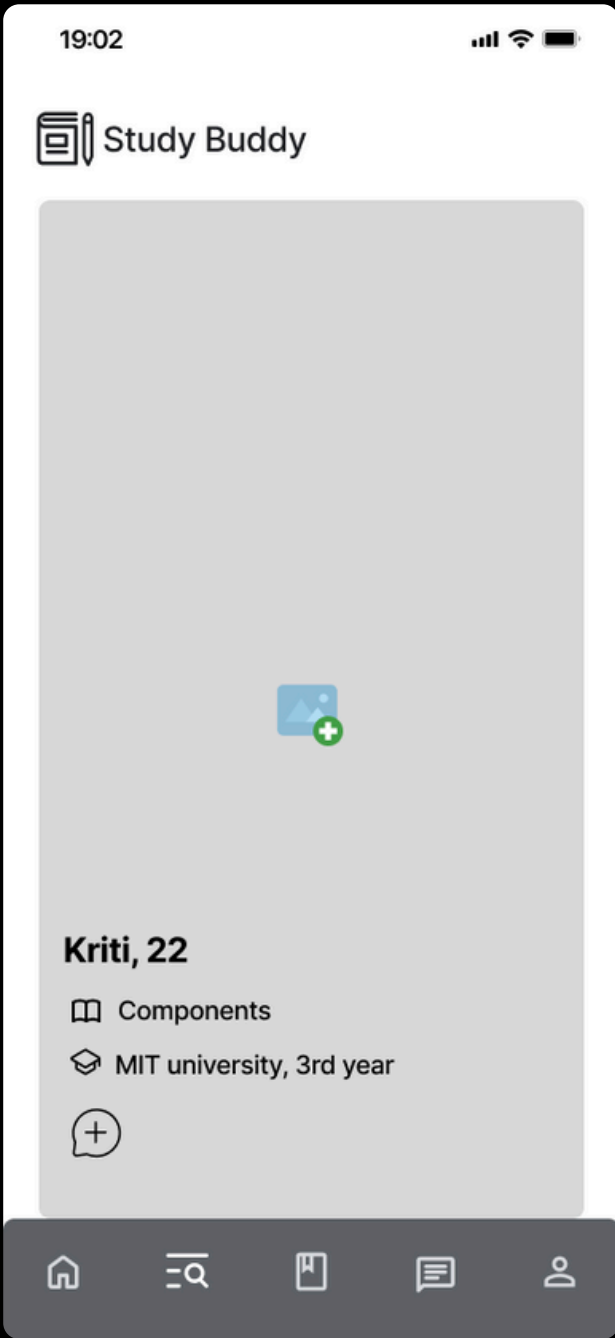

Pain Points: Finding partners for collaborative study, building academic network

App Needs: Group formation tools, communication features, shared resources

Quote: "I learn best by discussing concepts with others."
